# *COURSE STRUCTURE*

T Level courses will include the following compulsory elements:

- A technical qualification, which will include core theory, concepts and skills for an industry area

- Specialist skills and knowledge for an occupation or career

- An industry placement with an employer (minimum 45 days)

The total time for a T Level is expected to be around 1,800 hours over the two years, including the industry placement. This is a significant increase on most current technical education courses.

1,800 HOURS

2 YEARS

ENTRY REQUIREMENTS

A minimum of 4 GCSE passes at 9-4 including English and maths. A level 2 IT / computing qualification is desirable.

Students who complete their T Level will receive an overall grade of pass, merit, distinction or distinction*. You will get a nationally recognised certificate which will show your overall grade and a breakdown of what you have achieved.

WHAT ARE T LEVELS?

T Levels are new courses coming in September 2020, which will follow GCSEs and will be equivalent to 3 A Levels. These 2-year courses have been developed in collaboration with employers and businesses so that the content meets the needs of industry and prepares students for work.

T Levels will offer students a mixture of classroom learning and 'on-the-job' experience during an industry placement of at least 315 hours (approximately 45 days). They will provide the knowledge and experience needed to open the door into skilled employment, further study or a higher apprenticeship.

There is a clear choice at Post 16:

- A Levels
- International Baccalaureate (IB)
- T Levels: 80% classroom, 20% 'on-the-job'

The Leigh UTC and T Levels: creating STEM professionals for a future global market

WHY T LEVELS?

- T Levels encourage the use of different learning styles to include practical experience, as well as academic experience in the classroom.

- T Levels provide broader course content, including specialist skills and knowledge for a career.

- T Levels are perfectly suited to those who know what occupation they want to pursue, and prove they are occupationally competent providing a license to practice.

WHAT WE OFFER

We are proud to be offering the T Level in Digital Production, Design and Development. This is studied over two years at The Leigh UTC and has a technical bias for those looking to get an apprenticeship in the digital sector.

The Leigh UTC has a number of employers keen to support the T Level programme and will provide the extended work placements for each student.
